WORK EXPERIENCE

Stockwise - Owner, Full Stack Developer

MARCH 2022 - PRESENT

- Fully conceptualised and designed Stockwise.
- Developed the application as a PWA, currently available for free on the Google Play Store.
- Used modern security principles to ensure the safety of users and their data.
- Used Figma to create high-level wireframes.
- Maintained a roadmap and created weekly sprints.
- Designed a database using PostgreSQL.
- Determined monetisation model.

Spotpass - Front End Developer

JUNE 2021 - MARCH 2022

- Managed front end development and collaborated with backend team to build complete applications.
- Built a new internal portal using Micro Frontends and integrating Auth0 and GraphQL.
- Developed fully responsive user interfaces with mobile-first principles in mind.
- Worked autonomously in 2-weeks sprints.
- Created and oversaw wireframe designs.
- Wrote documentation for front end best practices.
